

# Nobel Prize Additions

The Nobel Prizes are too oriented to the conditions, needs and philosophy which prevailed at the end of the 19th century. Since then only one additional prize, for economics, was added. There should be several new Nobel Prizes responding to the needs of today, namely:

Compassion  
Cooperation  
Dreams  
Education  
Faith  
Forgiveness  
Generosity  
Hope  
Imagination  
Love  
Philosophy  
Spirituality  
Thanksgiving
