"I'm so honored to be alive at such a miraculous time in history. I'm so moved by what's going on in our world today. Never before in the history of the world has there been a global, visible, public, viable, open dialogue and conversation about the very legitimacy of war. The whole world is now having this critical and historic dialogue — listening to all kinds of points of view and positions about going to war or not going to war.

"We are not at war. We, the world community, are WAGING peace. We're in peacetime. So this is a miracle. This is what 'waging peace' looks like."
